

Arjun Raj

Final Year Computer Science Student | Aspiring Cybersecurity Specialist

Bengaluru | 9606290226 | arjunraj2k3k@gmail.com.com

[LinkedIn](#) | [Github](#) | [Portfolio](#)

Objective

Cybersecurity-focused final year Computer Science student with proven full-stack development skills (Java, Python). Expertise in secure application design and implementation. Holding a cybersecurity minor with specialized knowledge in VAPT and network security. Strong team player and leader.

Experience

Python Developer Intern | CyberSafeX | Remote

December 2024 – May 2025

- Contributing to the development and enhancement of **Python**-based systems within a cybersecurity context.
- Hands on experience in **API development** and integration, expanding skill set in backend technologies.
- Developing and troubleshooting** web applications, applying knowledge of front-end and back-end technologies.
- Collaborating** with team members on projects related to CyberSafeX's cybersecurity and Learning Management System (LMS) solutions, gaining exposure to the cybersecurity industry.

Internship Studio | AWS And CEH Intern | Remote

Sept, 2024 - Mar, 2025

- Performed website vulnerability assessments using **SQL injection** and tools like Burp Suite, OWASP ZAP, and Metasploit.
- Gained practical experience with **IAM** principles and **AWS cloud security**, including **EC2 instance** management and **CloudWatch** monitoring.

Exposys Data Labs Pvt. Ltd | Cybersecurity Intern | Remote

Sept, 2024 - Oct, 2024

- Implemented and analyzed **3DES encryption** for secure data processes, ensuring data integrity and confidentiality. Gained practical experience in **encryption protocols** and **cryptographic standards**.

Education

Moodlakatte Institute of Technology, Kundapura

2021-2025

Major : B.E. in Computer Science

CGPA - 7.5

Indian Institute of Technology, Guwahati

2024-2025

Minor : Cybersecurity

Skills & Abilities

Programing Languages: Java, Python, C++, HTML, CSS, JavaScript (React, Node, Angular), mySQL, API Development.

Cybersecurity: [IBM Cybersecurity](#), [Network Security](#), [CompTIA Security+ and CYSA+](#), Firewall Implementation, Network Intrusion Detection, AWS Cloud Services (IAM, EC2 instances), [NPTEL-Cybersecurity & Privacy](#), [Foundations of Cybersecurity\(Google\)](#).

Tools & Technologies: Visual Studio Code, Azure, GitHub, AWS Cloud services, ROS, PyCharm, Microsoft Office, Postman, OWASP ZAP, Burp Suite.

Soft Skills: Creativity, Content Writing, Teamwork, Leadership, Communication, Public Speaking.
